The Non-Partisan Open Clean Elections Movement

The Mini-CD/CD pictured above contains licensed software for restricted use by licensees only. An **ELECTRONIC END USER LICENSE AGREEMENT** authorizes the use of each Common Sense II software application on the Mini-CD/CD. Each license is a contract. To fulfill the contract each licensee must provide the valuable “sweat equity” needed to publish web pages and manage the software for the purpose designed into each application. The software is totally free beyond the valuable sweat equity and time provided by each licensee.

The creation of this software is based upon the explicit recognition of our *bipartisan two-party incumbent dictatorship* as a corruptible political institution that has misled our free democratic republic for the last two hundred years.

Bipartisan leadership has led us astray from the ideals embodied in our 1776 Declaration of Independence and in the US Constitution adopted in 1787. The whole purpose of the software is to enable US citizens to take our governments and our public policy decisions away from the above-mentioned *bipartisan two-party incumbent dictatorship*.

In the same words formerly used by our founders in 1776, non-partisan Internet participants in our *common sense* second revolution for individual sovereignty will, “with a firm reliance on the protection of Divine Providence, mutually pledge to each other our Lives, our Fortunes, and our sacred Honor.”

You are invited to participate in the overthrow of our bipartisan incumbent political tyranny. The Internet can provide the means for our voices to be heard in our newly reorganized and energized participatory political system. Build non-partisan efforts in your County and State. Do your part to lead the way. End political tyranny in our homeland.

Your computer desktop will be the headquarters for your *bottom-up* political leadership.

RICH STEVENSON, A FELLOW CITIZEN
CINCINNATI, OH, MAY 18, 2009
