

LIKELY VOTERS: 12% to 49% of *registered voters*.

NON-VOTERS: 88% to 51% of *registered voters*. *Unregistered age-eligible voters* are about equal in number to *registered voters* (50%). Obviously, 100% of age-eligible *unregistered voters* do not vote or actively support any political party.

DO THE MATH: 94% to 75% of all Age-Eligible Voters do not vote. Low participation supports a very *undemocratic* system.

“NON” = NON-AFFILIATED = NON-PARTISAN INDEPENDENT VOTERS
