**FREE POLITICAL TOOLS SOFTWARE MINI-CD**

## **The Nonpartisan Open Ballot Access Movement**

The free tools Mini-CD/CD, insert shown above, contains licensed software for restricted use by licensees only. An **ELECTRONIC END USER LICENSE AGREEMENT** authorizes the use of each Common Sense II software application on the Mini-CD/CD. Each license is a contract. To fulfill the contract each licensee must provide the valuable “sweat equity” needed to publish web pages and manage the software for the purpose designed into each application. The software is totally free beyond the valuable sweat equity and time provided by each licensee.

**PREMISE:** Creation of the free tools software is based upon the explicit recognition of the *bipartisan two-party incumbent dictatorship* as a corruptible political institution that has misled our free democratic republic for the last two hundred years. The bipartisan monopoly *dictates* public policy and writes civil law to protect their political monopoly.

Bipartisan leadership has led us astray from the ideals embodied in our 1776 Declaration of Independence and in the Bill of Rights in the U.S. Constitution adopted in 1787. The whole purpose of the free software is to enable U.S. citizens to take our governments and our public policy decisions away from the above-mentioned *bipartisan two-party incumbent dictatorship*.

In the same words used by our founders in 1776, today’s nonpartisan Internet participants in our *common sense* movement for open ballot access and individual sovereignty will, “with a firm reliance on the protection of Divine Providence, mutually pledge to each other our Lives, our Fortunes, and our sacred Honor.”

You are invited to participate in the overthrow of the *bipartisan incumbent political monopoly*. The Internet can provide the means for our voices to be heard in our newly organized and energized participatory political system. Build nonpartisan efforts in the precinct and County where you vote. Do your part to lead the way. End bipartisan political tyranny in our homeland. Up to you.

Your computer desktop will be the headquarters for your *bottom-up* political leadership.
